PROFESSIONAL & OWNER/BREEDER CONTINUING EDUCATION PROGRAMS

The Continuing Education Committee at the School has a problem . . . so many exciting events are planned for 1984 that there are not enough months in the year to schedule our programs!

Six professional programs have been arranged for the Fall of 1983. However, to allow the Continuing Education Office to concentrate its effort on two major conferences to be held during 1984, no other professional programs will be planned until January 1985.

Over 7,000 continuing education calendars were mailed to practitioners in the mid-Atlantic region during early August. While our first course with Dr. Anne Chiapella on Gastrointestinal Medicine has taken place, there is still time to register for five other courses (These are for Veterinarians only):

SURGICAL APPROACHES TO THE BONES & JOINTS OF DOGS

Laboratory and lecture with Dr. Charles Newton—October 27

continued on 16

Terry Frantz Miller, recipient of the 1983-84 Bide-A-Wee Home Association's Long-Sondheimer Scholarship.

Dr. Lawrence T. Glickman (left) of the University of Pennsylvania receives the Ralston Purina Small Animal Research Award from Dr. Paul F. Landis, President of the American Veterinary Medical Association. Dr. Glickman, Associate Professor of Epidemiology and Chief, Section of Epidemiology and Public Health in the Department of Clinical Studies, was recognized for his work in the area of epidemiology.

EVENTS

OCTOBER

27
